Forecast for Wednesday 02 Mar 2022

Weather: Quickly turning cloudy through the early hours of Wednesday with occasional hill fog, then rain arriving early morning and persisting through the day. Rain is expected to be heavy at times, particularly through late-morning and afternoon, with persistent hill fog. Very windy with southeasterly gales.

Chance of cloud-free hill tops above 700m: 40% at the start of the period, quickly lowering to 10% or less by dawn. Then 10% or less for the rest of Wednesday.

Low cloud and visibility: Quickly lowering to very poor in hill fog. Away from hill fog, visibility will be moderate in rain. Widespread low cloud with bases 300-500 m, and occasionally lowering 100-200 m.

Meteorologist's View

Feels like temperature will be lower than indicated given damp conditions throughout.

Forecast for Thursday 03 Mar 2022

Weather: Any rain quickly clearing to leave a much drier day with some bright spells. A little cloudier later with some showers, which will be wintry above 500 m. Strong southeasterly winds through the early hours, then easing and becoming westerly through the morning.

Maximum wind: Southerly 25-35 mph gusting 40-50 mph through early hours of Thursday, but easing through the day.

Chance of cloud-free hill tops above 700m: 10% quickly rising to 70% by mid-morning.

Low cloud and visibility: Moderate in early oubreaks of rain. Very poor in occasional hill fog with cloud bases 300-500 m, lowering to 200 m at times. From mid-morning cloud bases will lift and break with bases 400-700 m.

Temperature: **Valleys:** Plus 6 celsius rising to plus 8 celsius.
At 700m: Plus 2 celsius.
Freezing level: Near summits lowering to 700 m.
